• Classifications

Organize your MindTouch content with Classifications.

◦ Custom Classifications
◦ Page Classification Manager
◦ Page Classification report
◦ Recursive option for classifications
◦ Tags

• Permissions and Privacy

Configure permission and privacy levels on pages and sections within MindTouch to ensure that the right users have visibility to the appropriate content.

◦ Page access for file attachments
◦ Page Permissions
◦ Page Privacy - Restrict Access
◦ Restrict access to a New Page template
◦ Restrict who can edit templates

• Paths

MindTouch Paths organize a group of pages into a custom order with sequential navigation elements.
- Add a MindTouch Path to a guide
- Add a MindTouch Path to a page
- Automatically Expand Path on a page
- Best practices for creating MindTouch Paths
- Brand MindTouch Paths
- Change the URL of a MindTouch Path
- Create a MindTouch Path
- Delete a MindTouch Path
- Display paths via Contextual Help Touchpoint
- Edit a MindTouch Path
- Manage Paths
- Path searchability and navigation
- Revert to a previous version of a path
- Use MindTouch Paths in contextual help
